

Without diethylene glycol (DEG)

Diethylene glycol, a substance which is often used in smoke fluids, was rated as hazardous substance by the European Union and classified higher regarding toxicity in 2015. According to this, new tightened labeling obligations have already come into force.

We reacted on that a developed an additional fluid without DEG. It has the same effect as the ones with DEG, but with this fluid you ensure legal security and prevent legal disputes, liability claims, stiff penalties and health problems – this is why we really warmly recommend to use these fluids.

At Eurolite, we test our fluids stringently. And in addition, we let independent bodies continuously check the liquids.

Everyone using our smoke fluids places his trust in us. We pay it back with rigid controls of these liquids – and both sides win.

EUROLITE Smoke Fluid -A2D- Action Smoke Fluid

Fog effect with low density and hang time

- No. 51703750..... 1 l
- No. 51703752..... 5 l
- No. 51703754..... 25 l

EUROLITE Smoke Fluid -B2D- Basic

Fog effect with medium density and hang time

- No. 51703796..... 1 l
- No. 51703798..... 5 l
- No. 51703803..... 25 l
- No. 51703805..... 200 l

EUROLITE Smoke Fluid -C2D- Standard

Fog effect with medium density and hang time

- No. 51703830..... 1 l
- No. 51703832..... 5 l
- No. 51703834..... 25 l
- No. 51703836..... 200 l

EUROLITE Smoke Fluid -P2D- professional

Long-lasting fog effect with high density

- No. 51703844..... 1 l
- No. 51703846..... 5 l
- No. 51703848..... 25 l
- No. 51703850..... 200 l

EUROLITE Smoke Fluid -E2D- extreme

Extremely long-lasting fog effect with high density
